- Docker
- AWS

Experience

Freelance Developer
Upwork / Remote
2023 – 2024

Engaged directly with clients to understand their vision and goals, ensuring clear communication and alignment throughout the project. Prioritized quick turnarounds to bring their ideas to life efficiently, delivering high-quality results within deadlines.

Web3 Developer
DEBASED
2022 – 2023

Developed decentralized games on the Ethereum blockchain using Solidity for smart contract development and Node.js for back-end services. Utilized blockchain technology to ensure transparency, security, and ownership within the gaming ecosystem.

Full Stack Developer
SUDO LA
2021 – 2022

Collaborated with a diverse range of tech stacks to design and develop responsive e-commerce websites, as well as custom web applications. Focused primarily on using React to build dynamic, user-friendly interfaces, ensuring seamless user experiences.

Freelance Developer
Remote
2018 – 2021

Developed and implemented a variety of automated tools and bots to streamline workflows and enhance efficiency. These solutions were designed to automate repetitive tasks, reduce human error, and improve overall productivity.
